

Descendants of Capt. Thomas Graves of VA (Gen. 169)  
 through his son Thomas  
 (Rev. 9 July 2008)

NOTES: This chart shows male lines of descent only. The number in each bottom colored box is the DNA test ID. 24 of 26 means that 24 of the 26 DNA markers matched the inferred ancestral haplotype. A notation like 13/19 indicates a mutation from the ancestral haplotype, and means marker 13 had a value of 19.

It appears that some of the descendants shown on this chart may be misplaced. These include: 3699 seems to be a descendant of John<sup>2</sup>, Thomas<sup>3</sup>, instead of Thomas<sup>2</sup>. 24420 does not seem to belong in this group. 20522 does not seem to belong in this group. However, for those descendants who don't seem to belong where they are presently shown, other descendants from their line need to be tested to correctly determine the lineage.
