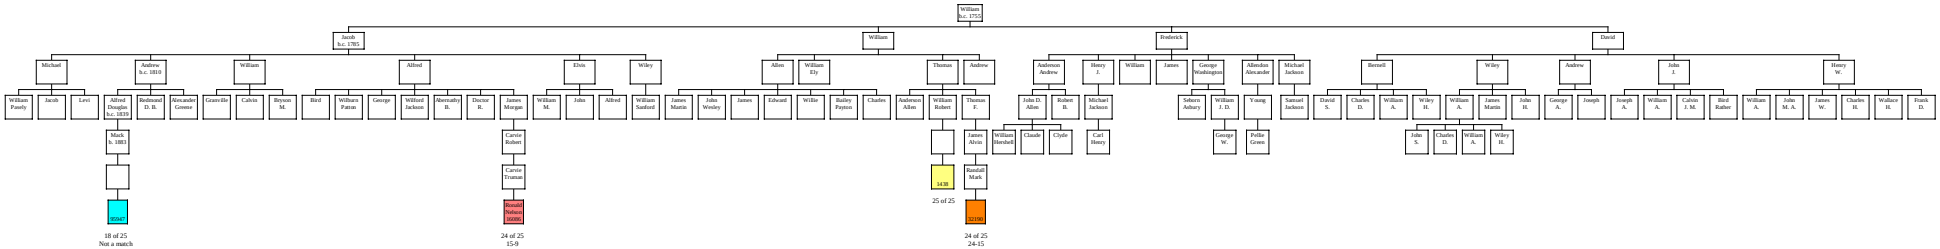
Descendants of William Graves and Elizabeth ------ of VA, NC & KY (Gen. 13)

(Rev. 29 Aug. 2007)



NOTES: This chart shows male lines of descent only, since the focus is on using Y-DNA analysis to trace the Graves surname.
The number in each bottom colored box is the DNA test ID.
All boxes with the same color have the same DNA test results.
24 of 25 means that 24 of the 25 DNA markers matched the inferred ancestral haplotype.
A notation like 13-19 indicates a mutation from the ancestral haplotype, and means marker 13 had a value of 19.

This genealogy seems (based on DNA test results) to be closely related to genealogy 148 (John S. Graves of NC, KY, & Johnson Co., IL). It may be related to genealogy 169 (Capt. Thomas Graves of VA), but that is not presently obvious.
