

Descendants of Matthew Greaves and Isabel Burton of Hampsthwaite, Yorkshire, England (Gen. 33)
(Rev. 2 Aug. 2012)

NOTES: This chart shows only those of descent only, since the focus is on using Y-DNA testing to trace the Greaves surname. Although women in this family line are participants in the DNA study, when they do, the following comments will apply:
The number of each female individual in the DNA test ID.
The number of each female individual in the DNA test results. It is assumed that the number of each female individual that took part in the study and all those up to and including the common ancestor have been given the same name.
All names will be given as they were at the time of the DNA test results.
Of 23 names that of the 23 names included in the chart and associated with a Y-DNA test ID.
It is assumed that the Greaves family may be related to others from Cottingham, including generations 1 to 23, and 24. Descendants of this family need to participate in the DNA study www.familytree.com
