Descendants of John Graves and Sarah Noble of MD & KY (Gen. 96)
(Rev. 30 Aug. 2020)

This genealogy is almost certainly descended from genealogy 247 for John Gravens of St. Mary's Co., MD. Male descendants to take Y-DNA tests are needed to help discover and verify connections and earlier ancestry.

John
b.c. 1760, MD

George
b.c. 1784, MD

William
b.c. 1785

Jessamine
b.c. 1790

John Milton
b. 1812, KY

William S.
b. 1820, KY

George M.
b.c. 1825, KY

Edward A.
b. 1818

David Lovell
b. 1826

George Washington
b.c. 1833

John
b.c. 1760, MD

Jessamine
b.c. 1790

William Downs
b. 1851, KY

John
b. 1925

James Emmett
b. 1868, KY

George Noble
b. 1813, KY

Benjamin
b. 1856, CA

Edward I.
b. 1818

John Cecil
b. 1853, KY

Glenn Tracy
b. 1901, CA

William Edward
b. 1915, KY

Glenn Tracy
b. 1943, CA

George Noble
b. 1813, KY

Jerrold Blandford
b. 1918, OR

John Joseph
b. 1924, OR

George
b.c. 1825, KY

Jessamine (Jesse)
b. 1827, KY

John Joseph
b. 1868

James A.
b. 1925

Alfred J. Bernard
b. 1929

NOTES: This chart shows male lines of descent only, since the focus is on using Y-DNA analysis to trace the Graves surname. Although there are presently no Y-DNA tests for this genealogy, the following comments will apply when there are test results.

The number in each bottom colored box is the DNA test ID. When two descendants of a common ancestor have exactly the same DNA test results, it is assumed that the common ancestor also had that result, and all boxes up to and including the common ancestor have been given the same color.

All boxes with the same color have the same DNA test results.

24 of 25 means that 24 of the 25 markers matched the inferred ancestral haplotype.

A notation like 13-19 indicates a mutation from the ancestral haplotype, and means marker 13 had a value of 19.
